

Shiel 39/128 Cap M

Fully supported custom roof flashings designed to cover the junction of the two roof slopes at the building ridge. They ensure waterproofing and provide a clean, finished appearance in roofing systems constructed with MetaLite COV 39/128 single-skin metal sheets

Available in

Side dimension 300mm | Length 760mm and 896mm

Configuration

Suitable for application on 39/128 trapezoidal profiles

Installation

They are fixed to the supporting structure using the standard visible fixing method
