

Shiel 42/250 Cap S

Fully supported custom roof flashings designed to cover the junction of the two roof slopes at the building ridge. They ensure waterproofing and provide a clean, finished appearance in roofing systems constructed with ThermaBarr, ThermaGard and ThermaMagma COV Ridg insulated panels, or with MetaLite COV 42/250 single-skin metal sheets

Available in

Side dimension 240mm | Length 3m

Configuration

Suitable for application on 42/250 trapezoidal profiles

Installation

They are fixed to the supporting structure using the standard visible fixing method
