

Shiel 42/250 Side

Fully supported custom roof flashings designed for the finishing of the junction between the roof and the vertical surface of the building. They ensure waterproofing and provide a clean, finished appearance in roofing systems constructed with ThermaBarr, ThermaGard and ThermaMagma COV Ridg insulated panels

Available in

Length from 1m to 6,40m

Configuration

Suitable for application on 42/250 trapezoidal profiles

Installation

They are fixed to the supporting structure using the standard visible fixing method
